

THE TRAITS

Roy Head and THE TRAITS present an action packed evening featuring the current favorites of today's music and the all time hits of the past few years. Mere words are inadequate to describe the kind of enthusiasm THE TRAITS generate with any dance crowd, and it is exciting to see the crowds gathering around the band stand to watch Roy Head singing his featured numbers.

Recording stars in their own right, THE TRAITS have scored big with "One More Time," "Linda Lou," "Teen-Age Letter" and their latest hit (released July 1965) . . . "Treat Her Right."

THE TRAITS have appeared at many of the leading social affairs, debutante parties, college proms, fraternity parties, country clubs, and personal appearances throughout the southwest.
